

**Torch**

**200 grams**

---

**Guide**

**Below**

Thank you for purchasing our lightweight Torch. While a torch might not be the first piece of gear that springs to mind when planning an overseas trip it can be prove a fantastic travel companion in all sorts of situations. From reading a book after lights out in a dorm to exploring the great outdoors, or even just staying safe in a new city. Good luck with your travels and we hope this torch will help you return home safely.

## **Operation**

The ON/OFF switch is located at the rear of the torch. Each press of the ON switch cycles the torch through 5 different modes:

- Strong light
- Medium light
- Weak light
- Explosive Flash
- SOS flash

To switch off, press and hold.

## **Charging**

The Torch comes with a USB-C cable and can be charged with any standard USB source, i.e a laptop, Power Bank or USB power outlet. Do not use with a charger that has an output voltage higher the 5V. The red charging indicator will light when the battery is being charged and will switch to green when the battery is fully charged.

## Head Strap

The Torch comes with a head strap, allowing it to be used hands free. Simply use the two smaller side straps to attach the torch to the main strap and then slip it over your head, with the torch pointing forwards on either the left or right side of the head.

## Notes

- Read these instructions prior to usage
- Don't point the light directly into someone's eyes
- Ambient temperature range: -10°C to 45°C
- Disassembling the sealed head can cause damage and will void your warranty
- Turn the torch off if you unscrew the tail tail hood or it may cause damage to internal parts
- If you have any issues please contact us at [hello@below7.com.au](mailto:hello@below7.com.au)
