

Travel Shaver

130 grams

Guide

Below

Thank you for purchasing our Travel Shaver. Staying groomed and tidy on the road can be tricky and we hope this shaver will help keep your face smooth and trim. It's simple to use, cleans with water and packs light and small. Best of all it charges with a USB-C cable making the perfect lightweight travel companion. This guide shows you the basics of how to use the Travel Shaver and other maintenance information.

Charging

Use the provided USB-C cable to charge the shaver like you would your phone. The ON switch will blink red whilst the shaver is charging. To converse the battery unplug the shaver once the battery is fully charged. Avoid charging the shaver in wet conditions as this may cause a short circuit. Replace the cap on the USB adaptor on the shaver as this will prevent water from getting inside. The shaver operates at 5V so due not use a power supply over 5V to charge.

Cleaning the Shaver

To remove the head of the shaver twist it counter clockwise until the head pops off. You will now be able to empty the contents of the shaver head and give it a clean. The shaver head & body can be cleaned with water. Simply clip the head back onto the shaver when cleaning is finished.

Shaving

The shaver works best against dry skin. Simply turn the shaver on and move it firmly over areas of stubble.

Notes

- Do not charge in wet conditions
 - Do not charge with a power outlet greater than 5V
 - Do not disassemble the shaver
 - While travelling keep the shaver contained in a dry safe place, like the pouch that it came with
